

Mohamed Shaban

MECHANICAL POWER ENGINEER

 **Sidi Salem, Kafr El-Sheikh, Egypt**

 **201094517814**

 [**eng.m.shaban.kfs@gamil.com**](mailto:eng.m.shaban.kfs@gamil.com)

Objective

Motivated Mechanical Power Engineering student seeking an entry-level position or internship in HVAC/MEP to apply academic knowledge, develop practical skills, and contribute to engineering projects in a professional environment.

Experience

West Delta Electricity Production Company — Trainee Engineer

Tanta, Egypt | Summer 2024

- Attended practical training on power generation systems and thermal power stations.
- Observed maintenance procedures for turbines, boilers, and pumps.
- Gained hands-on experience in safety systems and control room operations.
- Learned about large-scale electricity generation and distribution processes.

Naval Shipyard — Trainee Engineer

Alexandria, Egypt | Summer 2025

- Familiarized with shipbuilding and marine mechanical systems.
- Observed maintenance and repair operations for onboard equipment.
- Gained basic knowledge of propulsion systems, pumps, and auxiliary systems.
- Followed industrial safety procedures in a marine working environment.

Sugar Factory — Trainee

Kafr El-Sheikh, Egypt | Summer 2025

- Gained practical experience in sugar production processes.
- Observed manufacturing, refining, and packaging operations.
- Learned about mechanical equipment used in production lines.
- Followed safety procedures within an industrial environment.

Education

Kafr El-Sheikh University — Faculty of Engineering Bachelor of Engineering in Mechanical Power Engineering Expected Graduation: 2027 • Relevant Courses: Thermodynamics, Heat Transfer, Fluid Mechanics, Power Plants, HVAC Systems.

Skills & abilities

- HVAC System Design (Cooling Load, Duct Design)
- Firefighting Systems (Sprinkler Systems, Fire Pumps)
- Plumbing Systems Design (Water Supply & Drainage)
- Medical Gas Systems (Basic Design & Layouts)
- AutoCAD
- Revit (MEP)
- SolidWorks
- ANSYS (FEA)
- Microsoft Office (Word, Excel, PowerPoint)
